

2020 World Tsunami Awareness Day

Caribbean and Adjacent Regions Regional Webinar

3 November 2020
10.00-12.15 AST

The overarching aim of the webinar is to highlight the advances of the Tsunami Ready Programme in strengthening tsunami preparedness and evaluate its contribution to overall resilience in the Caribbean. The webinar will:

- Outline the Tsunami Ready Guidelines and examine the programme's utility as a multi-hazard disaster risk reduction tool based on experiences from the British Virgin Islands and wider Caribbean
- Reflect on the multi-sector stakeholder nature of the Tsunami Ready Programme and discuss the extent of its contribution towards the development of national and regional resilience in fulfilment of Targets E and G of the Sendai Framework for Disaster Risk Reduction

AGENDA

Presentation segment

Overview of the Tsunami Ready Programme in the Caribbean and its utility as a multi-hazard tool

Panel segment

Tsunami Ready Programme – A Key Paving Stone Towards a Resilient Caribbean

Discussions

Moderators: **Nahuel Arenas**, Deputy Chief, Regional Office, United Nations Office for Disaster Risk Reduction (UNDRR) - Americas & Caribbean; and **Ugo Blanco**, Resident Representative a.i. United Nations Development Programme Barbados & Eastern Caribbean (UNDP)
